Address: Lovag Utca 13

Date of Birth: 8 June 2000

Nationality: Sierra Leonean

PROFESSIONAL SUMMARY

Dedicated Computer Science graduate (BSc) with a strong foundation in applied mathematics, software development, and artificial intelligence. Currently seeking a Master's degree to specialize in predictive modeling and lightweight computer vision, with the long-term goal of developing accessible AI agricultural infrastructure for West Africa.

EDUCATION

Bachelor of Science in Computer Science (180 ECTS) *University of Debrecen, Hungary* | Sept 2022 – Jan 2026

- **Language of Instruction:** 100% English
- **Awards:** Recipient of the prestigious Stipendium Hungaricum Scholarship.
- **Final Classification:** Good (4.18/5.00)
- **Final State Examination:** 4.67 / 5.00
- **BSc Thesis 1 & 2:** Excellent (5/5)
- **Key Coursework:** Applied Statistics, Calculus, Discrete Mathematics, Foundations of Artificial Intelligence, Introduction to Reinforcement Learning, Data Structures and Algorithms.

West African Senior School Certificate Examination (WASSCE) *Sierra Leone Grammar School, Freetown, Sierra Leone* | Sept 2012 – July 2019

- **Key Results:** Mathematics, Further Mathematics, Physics, Chemistry, Biology.
- **Core Focus:** Intensive secondary science and mathematics curriculum preparing for university-level engineering and computer science.

WORK EXPERIENCE

Web Development & Maintenance Intern *Global Times Newspaper Online | Freetown, Sierra Leone (Remote)* | April 2025 – June 2025

- Developed and integrated a "Related Stories" widget using the WordPress REST API and client-side filtering, increasing average articles-per-session from 1.6 to 2.1.
- Optimized frontend performance by refactoring legacy CSS into a mobile-first Flexbox grid, enabling server-side caching, and compressing 1,200 images, reducing page-load time to ~2 seconds.
- Managed CMS administration and staging deployment via GitHub Flow (27 pull requests), resolving PHP 8.2 incompatibilities with zero production downtime.
- Configured automated monitoring (UptimeRobot) and Slack alerts, elevating overall monthly site availability to 99.6%.

Private Academic Tutor (Freelance / Self-Employed) *Freetown, Sierra Leone* | Sept 2021 – Sept 2022

- Provided intensive, independent tutoring in mathematics and core sciences to local high school students.
- Developed individualized lesson plans to simplify complex mathematical concepts and improve students' exam performance.
- Successfully managed freelance operations to finance future university education prior to securing a European academic scholarship.

TECHNICAL SKILLS

- **Programming Languages:** C, C++, Java, Python, SQL, C#, PHP, JavaScript, HTML/CSS.
- **Frameworks & Tools:** Git/GitHub Flow, REST APIs, WordPress CMS, Linux/Unix (Bash), MySQL/Oracle, Visual Studio.
- **Core Competencies:** Object-Oriented Programming (OOP), Data Structures & Algorithm Design, Relational Database Management, Web Performance Optimization, Software Engineering & Testing.

LANGUAGES

- **English:** Fluent / Language of University Instruction
- **Krio:** Native
- **Hungarian:** Beginner (Completed A1 coursework)
